

The Morris HMR Chiller has been proven to generate a positive return on investment the very first day

- Washing action dramatically decreases organic load
- Chiller design provides up to 20 minutes of surge protection decreasing costs of downstream down-time.
- Heavy-duty dasher drive is sized for robust loading
- 10-gauge stainless steel tank sections provide durability - dasher and unloader assembly also constructed of stainless steel
- Chiller is available in 8' and 10' diameter models and is shipped preassembled, lubricated and test operated for quick installation

Optional:
Dynamic propulsion system
